mr.president prologue episode

This game is SO-SO!

The graphics are not that bad, but the movement is horrible. even when you aim.. it's like your character's sick. All in all 3 out of 10... Game is too short!!!. controls ungodly terrible. Well... there is a lot of bad things in this game but my main complain is the controls which are horribly broken. Also this game is "complete and forget" kind of game so nobody will come back to it and enjoy playing it. If not the achievement i would probably uninstall it in five minutes from turning the game on. Do not waste your money on it,. its good for badges but gameplay is R.I.P. not my type of game. Game is cool very funny you can really enjoy it but PLEASE!!!:

-Make jump higher or something because if u bump doors off on a body u cant pass it :/

-fix aiming

-Make game longer and if its not possible then make it cheaper! 2 Euros for really 30 minutes of play is not really worth

-Fix movement! I almost wanted to kill myself getting on airplane!

Im gonna give you a positive because you have a good idea just fix some problem and its gonna be a good game! :). I am not racist for thinking this. Russia cannot produce a single decent indie title. This "shooter" about what i assume is putin shooting his way through his problems because "they" want his powers, I made it through the first stage insufferably after tired 10 year old meme references and realized the only person dodging any bullets was me.

I idled for the 3 cards, I dont care if I never 100% this game on steam. It controls so bad and the game drags on so much only a narcissist could enjoy this. Maybe other russians like this game, they have no idea what constitutes a decent title anyway so this might be as golden.

Save yourself the dollar.. The game is quite boring so i doubt i would've given it a positive review. Wow, sorry. That was crazy (Intentionally) messed up controls, no really variation, bad hitboxes when shooting.

2/10 for quite fast achievements + cards.. :(

game is pretty good but its short 1 hour. This game isn't good, i know that its a joke but still not worth 1\$ the wlking isn't correct to be a joke, moving is way to slow, the maps are dragged out, blank.
